# NEUROSCIENCE meets GESTALT PSYCHOLOGY

**Dynamics of Micro- and Macro-Processes  
in Cognition, Language, Psychotherapy, Education, Culture**

You are cordially invited to attend the international 16th Scientific Convention of the GTA at the University of Osnabrück (Germany), on March 26–29, 2009. The conference will be organized in cooperation with the Institute of Psychology and the Institute of Cognitive Science.

[Click here for information about the city of Osnabrück!](#)

The program of the conference will feature plenary lectures, workshops and poster sessions. The conference theme – **Neuroscience meets Gestalt psychology** – is intended to suggest rather than restrict topics for consideration. Presentations may focus specifically on this conference theme or on other related subjects from a variety of fields of research and application of Gestalt theory which serve the discussion and advancement of the Gestalt-theoretical approach.
